Subject: Re: A message from the BBC

Dear Mr Davie , thank you for your email to myself where you mention your guiding principles and set out your 4 main priorities for BBC which I have read very carefully. I also thank you for your offer to discuss with myself the 4 priorities you have listed in detail in your speech to staff which I found very interesting particularly the mention of focusing on the people we serve :the public , spend more time outside the BBC listening to those who pay for us and make the BBC less rather than more London - Based .

On that last note I must ask why when you have stated the above are you ceasing to Broadcast Scottish Government Covid 19 briefings which are of upmost importance not only to Scotland but UK .

I would ask you on behalf of the many Constituents who have contacted me expressing genuine concerns and myself as an Elected Member of Scottish Parliament to reverse this decision and as you have stated in your letter focus on the people you serve and pay for the BBC the public .

Yours

Sandra White MSP Glasgow Kelvin
